Portfolio: haloadvokat.vercel.app

PROFESSIONAL SUMMARY

Dedicated HSE professional with **8+ years of hands-on field experience** in coal mining and quarry operations, uniquely strengthened by a legal education background that sharpens regulatory compliance and risk assessment precision. Proven track record of **building complete OHS Management Systems from inception**, maintaining **Zero Accident and No LTI milestones** across multiple active mine sites, and recognized as **Best Committee Chair at Bayan Group K3N Month 2023**. Currently expanding expertise into AI-driven workflow optimization to deliver next-generation efficiency in safety management systems.

WORK EXPERIENCE

PT. Sungai Berlian Mahakam – Sungai Berlian Group

HSE Coordinator

January 2025 – Present

- Developed and upgraded OHS management systems across all IUP areas, aligning operations with best mining practice principles and Indonesia Ministry of Mining regulatory requirements.
- Delivered data-driven reporting to the MSED Director, directly contributing to measurable development targets across the company's entire multi-IUP portfolio.
- Coordinated HSE personnel planning and effectiveness monitoring for all IUP operations, strengthening system-wide safety control and organizational accountability.
- Ensured full enterprise-wide regulatory compliance with Ministry of Mining standards, reducing risk exposure across all active operational areas.

PT. Batara Dharma Persada

Senior Safety Officer

September 2024 – January 2025

- Built and launched a complete Safety Management System from inception for a specialized coal hauling project (Bayan Group Tabang–Senyur), fully integrating it with the owner's established OHS standards and framework.
- Evaluated and developed safety systems in active collaboration with the principal contractor's OHS framework, ensuring seamless operational alignment from day one.
- Promoted and cultivated a zero-tolerance safety culture among all employee levels in a high-risk subcontractor mining environment, maintaining incident-free operations.

PT. Aragon Tambang Pratama

Senior HSE Staff

October 2023 – July 2024

- Designed and deployed a complete OHS Management System from zero, keeping all safety programs synchronized with updated national mining regulations throughout the project.
- **Achieved Zero Accident and No LTI (Lost Time Injury) milestones** across the entire project duration, delivering measurable, sustained safety performance under field conditions.
- Maintained continuous regulatory compliance across all operational areas, contractor activities, and external safety audits with zero major non-conformances recorded.

PT. Bara Tabang – Bayan Resources Group, Site Tabang

Safety Foreman – Systems & Compliance

July 2017 – July 2023 (6 Years)

- Managed end-to-end safety documentation control and OHS reporting for one of the largest Bayan Resources coal mining sites across a **6-year tenure**, maintaining consistent cross-departmental compliance continuity.
- Ensured all Standard Operating Procedures were continuously updated, properly documented, and effectively socialized to all employee levels, sustaining 100% SOP currency site-wide.
- Delivered recurring safety training and briefing programs to cross-functional teams, building and sustaining a Zero Accident safety culture across multiple operational cycles.
- **Honored as Best Committee Chair (Ketua Panitia Terbaik)** by PT. Bayan Resources Tabang Project management for exceptional leadership of the National Workplace Safety Month (Bulan K3N) 2023 program.
